# wwordly

Wordly es una plataforma basada en la nube que proporciona interpretación simultánea en tiempo real de un idioma a varios idiomas, todo este trabajo es impulsado por IA (Inteligencia Artificial).

Este documento proporciona instrucciones sobre cómo agregar idiomas en su máquina Windows para habilitar TTS (Text to Speech) para ser utilizado en Wordly. **Si tu máquina ya está configurada al Español, no será necesario realizar este proceso, solo sigue las instrucciones para conectarte a Wordly.** 

#### Instrucciones

Paso 1: Abra Configuración en Windows. Busque Configuración de idioma.

- Paso 2: Haga clic en Agregar un idioma preferido.
- Paso 3: Busque el paquete de idioma que necesita agregar (el ejemplo aquí es Español- México).
- Paso 4: Puede utilizar el idioma una vez descargado el paquete.

Paso 5: Asegúrese de que la opción TTS (Text to Speech) esté seleccionada..

- Paso 6: El paquete comenzará a descargarse (puede tardar hasta 15 minutos).
- Paso 7: Debería ver los iconos en el paquete descargado como se muestra a continuación.
